Health insurance options

If you don't have health insurance, the Marketplace is a way to find health coverage that fits your budget and meets your needs. When you apply for coverage, you can see all your options and enroll. Every health plan in the Marketplace offers the same set of essential health benefits, including doctor visits, preventive care, hospitalization, prescriptions, and more. You can compare plans based on price, benefits and other features important to you before you make a choice.

Insurance plans run by private companies

Insurance plans offered through the Marketplace are run by private companies. You can compare your health coverage options in the Marketplace and see what your premium, deductibles and out-of-pocket costs will be before you decide to enroll. There are protections for you and your family. Insurance plans can't deny you coverage because of pre-existing or chronic conditions like cancer or diabetes, and they can't charge women and men different premiums.

Get help with costs

When you use the Marketplace you may be able to get a tax credit to lower your monthly premiums and out-of-pocket costs. When you apply, you'll find out how much you can save. Most people who apply qualify for some kind of savings.

2. Ask your employer if it offers health insurance

If your employer doesn't offer health coverage, you can get coverage through the Marketplace or other sources.

For example, "Can I stay with my current doctor?" or "Will this plan cover my health costs when I'm traveling?"

4. Gather basic info about your household income

You'll need income info, like the kind on your W-2, pay stubs or tax return.
