

# State of North Carolina

**ROY COOPER**  
GOVERNOR

**HYDROCEPHALUS AWARENESS MONTH**

**2020**

**BY THE GOVERNOR OF THE STATE OF NORTH CAROLINA**

## **A PROCLAMATION**

**WHEREAS**, hydrocephalus is a condition in which excessive accumulation of cerebrospinal fluid in the brain results in abnormal widening of the ventricles; there is no known cure, and this condition creates harmful pressure on the tissues of the brain that can be fatal if left untreated; and

**WHEREAS**, the two primary types of hydrocephalus are congenital hydrocephalus, which is present at birth and may be caused by genetic abnormalities during fetal development; and acquired hydrocephalus, which can develop at the time of birth or any age thereafter, and may be caused by injury or disease; and

**WHEREAS**, two other forms of hydrocephalus, primarily affecting adults, are ex-vacuo, which occurs when a stroke or traumatic injury causes damage to the brain; and normal pressure hydrocephalus, which is most common among older adults and often has no known cause; and

**WHEREAS**, experts estimate that this condition affects more than a million Americans, or 1.5 of every 1,000 live births; approximately 700,000 of those cases are older Americans; and

**WHEREAS**, the only treatment for hydrocephalus is brain surgery, in which a shunt system is inserted to divert the flow of cerebrospinal fluid to another area of the body where it can be absorbed as part of the normal circulatory process; and

**WHEREAS**, hydrocephalus poses risks to both cognitive and physical development and often requires multiple brain surgeries over a lifetime; children diagnosed with the disorder can benefit from early intervention programs, rehabilitation therapies, and educational interventions; and

**WHEREAS**, in 2009, the United States Congress passed a resolution designating September as National Hydrocephalus Awareness Month; and

**WHEREAS**, the State of North Carolina joins the Hydrocephalus Association, all other concerned organizations, individuals, agencies, and businesses in raising public awareness of this condition to increase understanding and build support for those and their families affected by hydrocephalus in our community;

**NOW, THEREFORE, I, ROY COOPER**, Governor of the State of North Carolina, do hereby proclaim September, 2020, as **“HYDROCEPHALUS AWARENESS MONTH”** in North Carolina, and commend its observance to all citizens.
