

State of North Carolina

ROY COOPER
GOVERNOR

CONGENITAL DIAPHRAGMATIC HERNIA AWARENESS MONTH

2022

BY THE GOVERNOR OF THE STATE OF NORTH CAROLINA

A PROCLAMATION

WHEREAS, a congenital diaphragmatic hernia (CDH) is a birth defect that occurs during fetal development and causes a hole in an infant's diaphragm, allowing organs to migrate through the hole and crowd the chest cavity, which can ultimately prevent lung growth; and

WHEREAS, approximately 1 in every 2,500 babies are diagnosed with a CDH; and

WHEREAS, more than 1,600 babies are affected by CDH every year in the United States, with only about half surviving past infancy; and

WHEREAS, CDH is as common as spina bifida and cystic fibrosis, but it is not as well-known; and

WHEREAS, those with CDH often endure multiple surgeries and possible medical complications which include pulmonary complications, gastric and intestinal problems, developmental delays, and may require respiratory and medicinal support for years; and

WHEREAS, raising awareness of this congenital defect can help increase acceptance and support for those suffering with CDH and their families, and bring attention to the urgent need for research and medical advances to prevent and treat this birth defect;

NOW, THEREFORE, I, ROY COOPER, Governor of the State of North Carolina, do hereby proclaim April, 2022, as "**CONGENITAL DIAPHRAGMATIC HERNIA AWARENESS MONTH**" in North Carolina, and commend its observance to all citizens.

Roy Cooper
Governor

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Great Seal of the State of North Carolina at the Capitol in Raleigh this thirtieth day of March in the year of our Lord two thousand and twenty-two and of the Independence of the United States of America the two hundred and forty-sixth.
