

# State of North Carolina

**ROY COOPER**  
GOVERNOR

**CONGENITAL DISORDERS OF GLYCOSYLATION AWARENESS DAY**

**2024**

**BY THE GOVERNOR OF THE STATE OF NORTH CAROLINA**

**A PROCLAMATION**

**WHEREAS**, Congenital Disorders of Glycosylation (CDG) are a group of rare metabolic disorders that affect normal organ development and the neurological system, leaving children, adolescents, and adults impaired with significant physical and developmental disability; and

**WHEREAS**, these disorders are severely underdiagnosed and misdiagnosed, with only approximately 1,800 cases diagnosed as CDG globally, and only 350 cases currently reported in the United States; and

**WHEREAS**, lack of public awareness and visibility of CDG contributes to underdiagnosis and difficulties in accessing specialized services and proper rehabilitation and support; and

**WHEREAS**, early diagnosis of CDG is important to ensure timely management of clinical complications, genetic counseling, and when available, treatment and therapeutic remedies; and

**WHEREAS**, the State of North Carolina encourages residents and health care providers across the state to raise awareness and increase the accurate and timely diagnosis of this rare group of inherited metabolic disorders;

**NOW, THEREFORE**, I, ROY COOPER, Governor of the State of North Carolina, do hereby proclaim May 16, 2024, as **“CONGENITAL DISORDERS OF GLYCOSYLATION AWARENESS DAY”** in North Carolina, and commend its observance to all citizens.
