Presentation to the Governor's Commission on Access to Sound Basic Education

2/28/19
D. Shephard

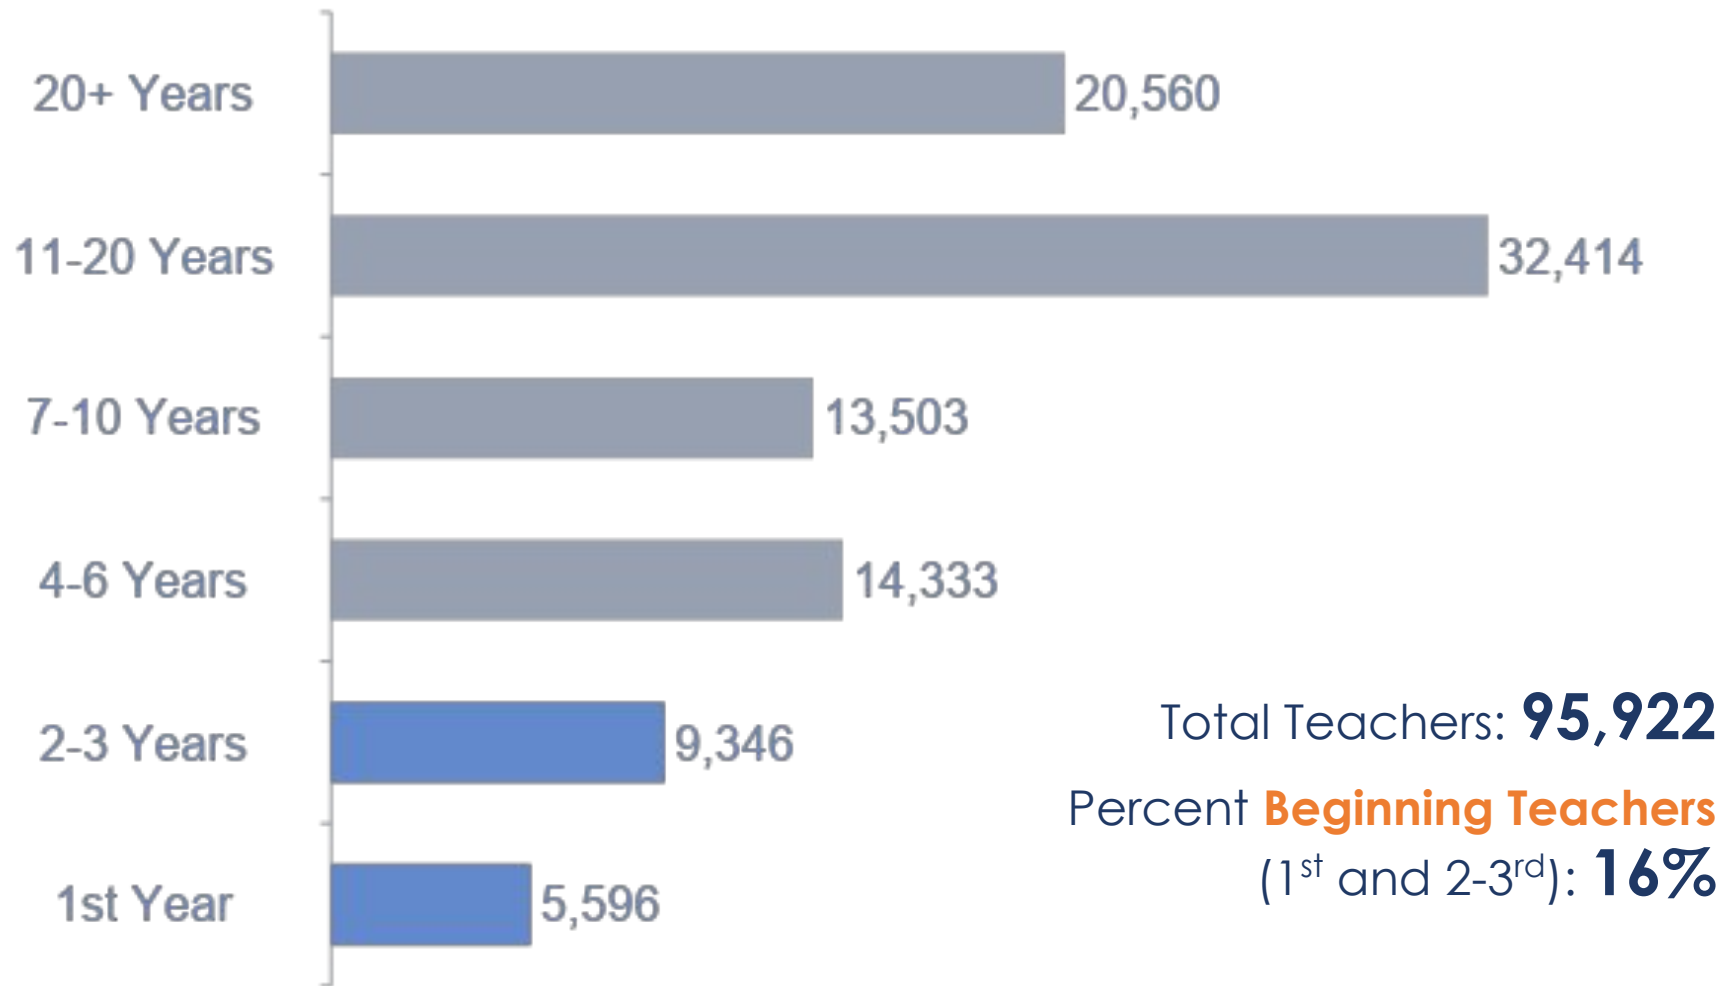

2018 NC TWC Survey Constructs

Use of Time	Available time to plan, to collaborate, to provide instruction, and to eliminate barriers in order to maximize instructional time during the school day
Facilities and Resources	Availability of instructional, technology, office, communication, and school resources to teachers
Community Support & Involvement	Community and parent/guardian communication and influence in the school
Managing Student Conduct	Policies and practices to address student conduct issues and ensure a safe school environment
Teacher Leadership	Teacher involvement in decisions that impact classroom and school practices
School Leadership	The ability of school leadership to create trusting, supportive environments and address teacher concerns
Professional Development	Availability and quality of learning opportunities for educators to enhance their teaching
Instructional Practices & Support	Data and support available to teachers to improve instruction and student learning

2018 Responses by Teacher Experience

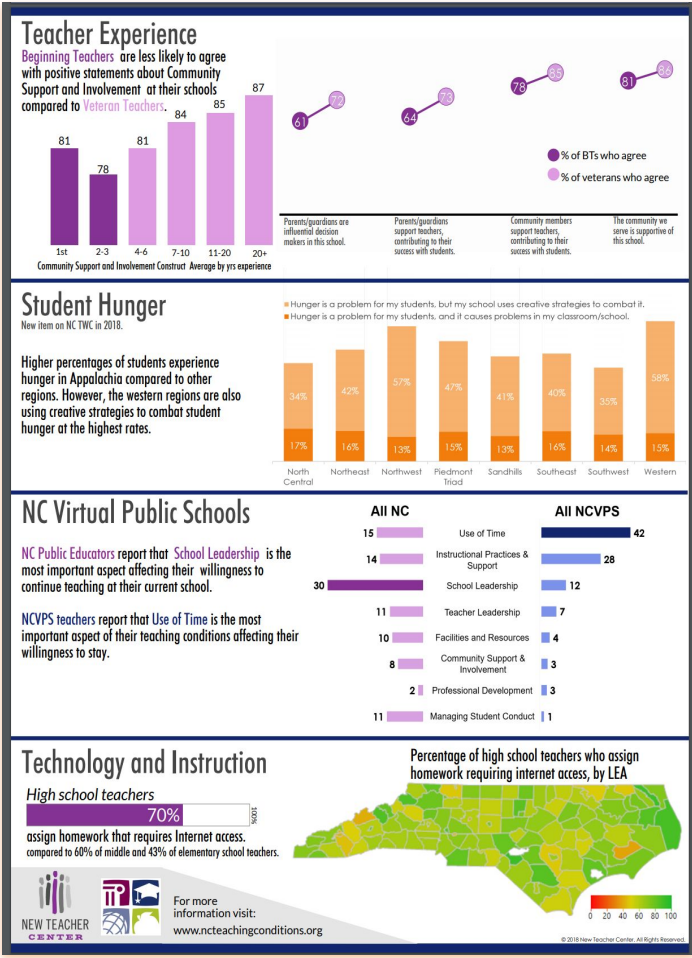

2018 Responses by School Level

2018 Survey Data Highlights

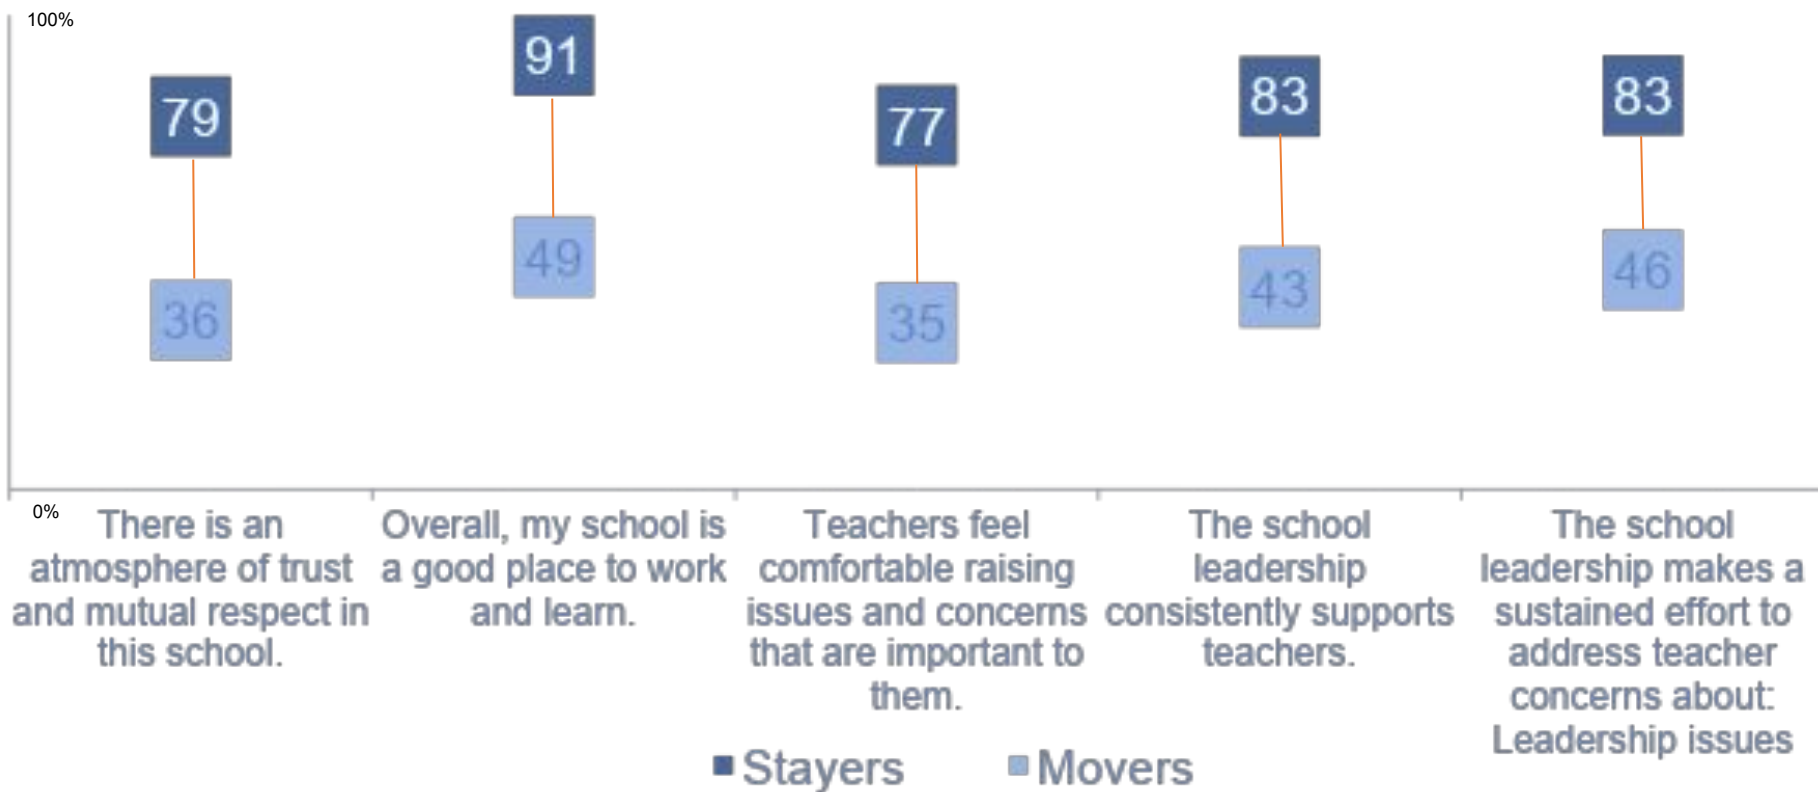

Willingness to Keep Teaching at Current School

Stayers and Movers Response Disparity

Dr. Richard Ingersoll's Latest Research

School Leadership, Teachers' Roles in School Decision-Making, and Student Achievement Dr. Richard Ingersoll, University of Pennsylvania Consortium for Policy Research in Education

In Summary: 5 Key Findings

1

Ingersoll found students in schools with higher levels of school leadership and teacher leadership perform at *least 10 percentage points higher in both mathematics and English language arts proficiency on their state assessments* (*After allowing for poverty and other demographic factors.)

2

The elements of school leadership with the greatest connection to student achievement are school leaders who:

1. Hold teachers to high standards
2. Provide an effective school improvement team
3. Foster a shared vision for the school.

3

The elements of teacher leadership with the greatest connection to student achievement are schools which involve teachers in:

1. Establishing student discipline procedures
2. School improvement planning.

In Summary: 5 Key Findings

- 4 Just as importantly, Ingersoll found that school leaders implement the five elements differently in schools, with a strong preference of holding teachers to high standards, yet all five elements are strongly connected to student success.
- 5 In high poverty schools, this imbalance is exacerbated, often placing students in these schools at an even greater disadvantage.

This focus on high poverty schools and the research findings is one of the reasons Dr. Ingersoll and I will be presenting at the National Title I Conference in late January 2019.
