Program Gaps in 2015

Problem #1: Not all schools in the program were advancing student achievement. **Why?**

- Teachers were hired without positive data to move student achievement.

Why?

- No talent pool in 2013-14
- Loose talent pool process in 2014-15

Solution: Restructure the **talent pool** process and implement a requalification process

Problem #2: Teachers coached by MCLs weren't always improving. **Why?**

- Teachers moved to MCL role and coached other teachers without effective skills to lead other adults

Solution: Offer specific **professional development** courses that proactively build skills as teacher-leaders progress through the advanced career pathway
